YOUR
LIBRARY**

With reductions in staff capacity and limited resources, this framework will help you every step of the way, from initial concept to call-off contract award. Procurement processes can be challenging and time consuming – taking typically around six months.

Warwickshire County Council has done the legwork for you with a ready to use framework of three specialist suppliers covering all aspects of library design and refit. This means you can save time and money, whether you are ordering furniture or remodelling your entire library network.

Fully compliant with EU procurement regulations, the service has been developed by library, procurement and legal professionals.

The framework offers a choice of three leading suppliers who have been selected to offer value for money, quality and choice throughout the process - from design, to refit to aftercare. The design work specifically recognises the needs of customers who visit libraries as well as demands for more innovative use of flexible spaces that will deliver services and attract new audiences.

The three suppliers are:

- **FG Library Products Ltd**
- **Opening the Book Ltd**
- **thedesignconcept Ltd**

Whether you need a specific library refit or a number of refits, the framework walks you through the entire process

The framework provides the following:

- Innovative design solution to remodel your library layout
- Supply of furniture, fittings and tailor-made products
- Installation of all goods
- Advice on signage and graphics
- After sales support
- Training (where necessary) on the use of the supplied goods

You can also choose how to pay for accessing the framework. You may opt to either pay 1.5%* of the contract value on a one-off library refit project, or £2,500* to use the framework up to twelve times until 31 August 2020 to suit your service over a longer period.

** Prices are exclusive of VAT*
